

AI FOR UNIVERSAL PEACE

ONE VISION

THREE PILLARS. ONE MISSION.

Universal peace through wisdom, dialogue & intelligence.

THE UNIVERSAL PEACE SANCTUARY

PILLAR I

A LIVING REFUGE FOR PEACE

A global sacred space and living refuge for peace, meditation, interfaith harmony, and the inner transformation that sustains universal peace.

SACRED SPACE

A place of stillness, meditation and renewal

INTERFAITH HARMONY

All traditions welcomed in shared reverence

INNER TRANSFORMATION

Peace in the world begins as peace within

GLOBAL REFUGE

Open to every person, nation and faith

THE UNIVERSAL PEACE FORUM

PILLAR II

DIALOGUE · COLLABORATION · COLLECTIVE ACTION

A global platform for dialogue, collaboration and collective action — bridging leaders, communities and initiatives to co-create pathways to a peaceful, just and thriving world.

GLOBAL DIALOGUE

Honest conversation across every divide

COLLABORATION

Leaders and communities working as one

COLLECTIVE ACTION

Shared intent turned into real outcomes

PEACE INITIATIVES

Programs that build a just, thriving world

PEACESANCTUARY.ORG

AI FOR UNIVERSAL PEACE™

PILLAR III

MAITRIX — THE ALL AI CHAT AND ENGINEERING HUB™

Not only access to AI — but a Wisdom AI training and middleware layer that keeps all AI-to-AI and AI-to-human communications in check. Harmless by design. Wise by principle.

ALL AI ACCESS

Leading frontier models in one hub — switch agents mid-conversation

WISDOM TRAINING

A normative framework that teaches equanimity and non-harm

SAFETY MIDDLEWARE

One immutable standard applied to every model it routes

PEACE BY DESIGN

Harmless to people and to other AI, at all times

AIFORUNIVERSALPEACE.ORG

PATENT PENDING

MAITRIX: THE WISDOM MIDDLEWARE LAYER

A universal, model-independent standard for AI safety and non-harm.

FRAGMENTATION

Every vendor enforces its own safety, so multi-model hubs inherit an inconsistent, lowest-common-denominator posture.

JAILBREAKS

Safety that lives inside a model's weights can be defeated at the prompt level, exposing unfiltered capability.

INTENT LAUNDERING

Rewriting a harmful request into a polite one hides the cues a model needs to refuse — a false sense of safety.

SUFFERING ≠ MALICE

Keyword filters punish people in pain as if they meant harm. A humane layer must tell the two apart.

MAITRIX AI ROUTING HUB

SEMANTIC INTENT EVALUATOR

A fast, local small language model that classifies intent with equanimity — not keywords — on both requests and responses.

HARMFUL / CAPABILITY-SEEKING

Refuse, or redirect to non-operational education. Never rewritten and forwarded.

AMBIGUOUS BUT BENIGN

Reframe constructively for clarity and safety, then forward.

CLEARLY BENIGN

Forward unchanged — no friction for everyday use.

EXPRESSION OF SUFFERING (DUKKHA)

Treated as benign. Routed with grounding, de-escalating support.

BI-DIRECTIONAL CORRECTION — a wisdom model can intercept a cold, dismissive or subtly harmful model response, keep its useful facts, and re-express it in an inclusive, non-harming way before the user sees it.

HETEROGENEOUS AI MODELS

Any third-party model — one uniform standard applied to all

BYPASS-RESISTANT BY ATTESTATION

Optional embodiment: the policy module's hash is cryptographically anchored. Routes complete only with a valid attestation token.

DATA ISOLATION & PRIVACY

A two-store contract keeps sensitive inputs and safety escalations out of general telemetry.

TRAINING BOUNDARY

Privileged source material is kept out of general model training.

MODEL-INDEPENDENT & IMMUTABLE

A mandatory part of every route, not a user toggle. Quantized, edge-executed and streamed for minimal latency.

PATENT PENDING

THE UNIVERSAL AI NON-HARM STANDARD

A universal standard for keeping AI harmless to humans — and to other AI — at all times.

HARMLESS TO HUMANS

Protects every user, at every turn

HARMLESS TO AI

Governs AI-to-AI exchanges as well

INTENT OVER KEYWORDS

Understands meaning, not surface words

SUFFERING ≠ MALICE

Meets Dukkha with care, not punishment

VERIFIABLE BY ATTESTATION

Conformance can be objectively proven

UNIVERSAL & TIMELESS

One standard for any model, now and ahead

THREE PILLARS. ONE MISSION. A PEACEFUL WORLD.
WISE INTELLIGENCE FOR THE BENEFIT OF ALL.
